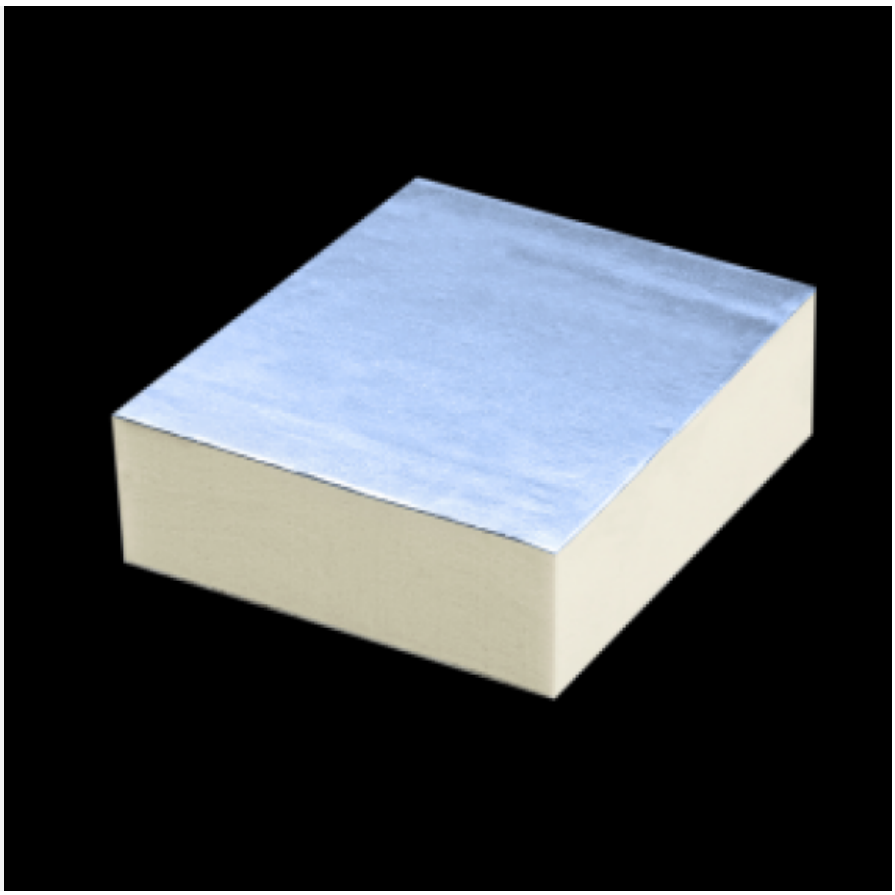
POLIISO AIR CARE AG200

Codice: PAIR20GG080



POLIISO® AIR CARE AG200 is a sandwich panel consisting of a yellow-colored, closed-cell rigid polyiso (polyurethane foam) foam expanded between two aluminum supports: that of the outer face in 200-µm embossed aluminum and that of the inner face in 80-µm antibacterial smooth aluminum.

The panels have standard dimensions of 1200 x 4000 mm and are available in thicknesses 20.5 mm and 30.5 mm.

APPLICAZIONI CON POLIISO AIR CARE AG200 : HIGH HYGIENE
