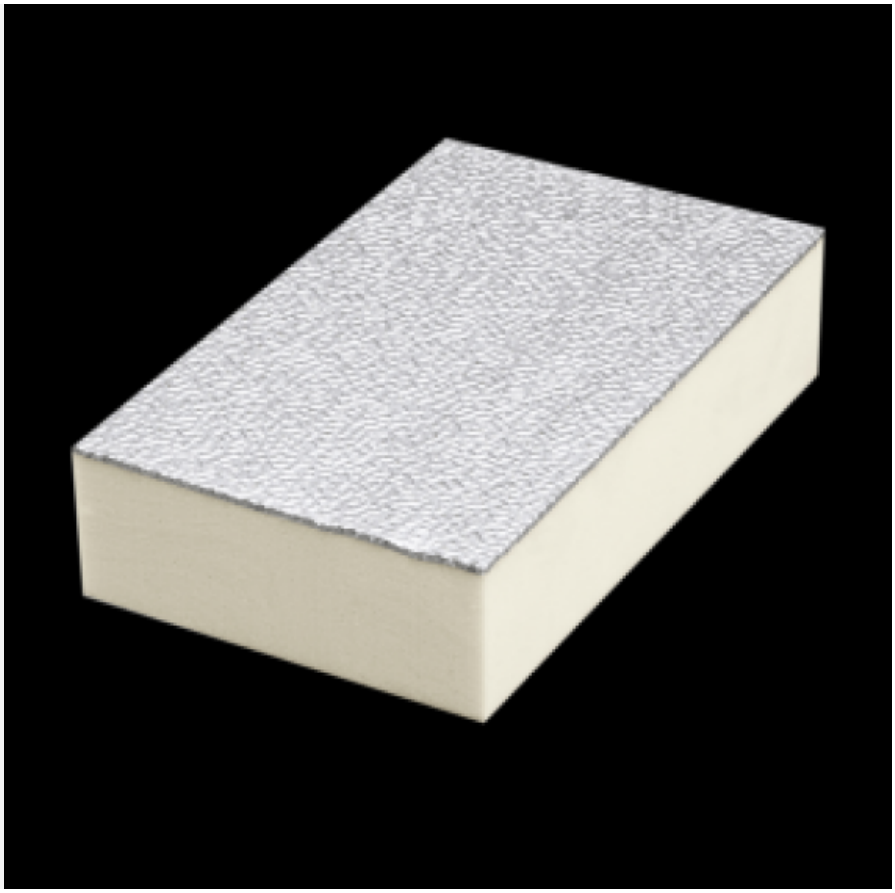
POLIISO AIR OUTDOOR GG200

Codice: PAIR20GG080



POLIISO® AIR OUTDOOR GG200 is a sandwich panel consisting of yellow-colored, closed-cell rigid polyiso (polyurethane foam) foam expanded between two embossed aluminum supports: that of the outer face 200 µm and that of the inner face 80 µm.

The panels have standard dimensions of 1200 x 4000 mm and are available in 30.5 mm thickness.
