POLIISO AIR OUTDOOR GL200

Codice: PAIR20GG080

POLIISO® AIR OUTDOOR GL200 is a sandwich panel consisting of yellow-colored, closed-cell, rigid polyiso (polyurethane foam) foam expanded between two aluminum supports: that of the outer face in 80-µm embossed aluminum and that of the inner face in 200-µm smooth aluminum.

The panels have standard dimensions of 1200 x 4000 mm and are available in thickness 30.5 mm
